Education

B.Tech, Computer Science Engineering , GITAM University (8.77 CGPA)	2023 – 2027
Senior Secondary (XII) , Ascent Junior College (86%)	2023
Secondary (X) , Bethany School (85%)	2021

Experience

Developer Intern — Patch ID May 2026 – July 2026

- Contributed to frontend development of dashboard interfaces using React, Next.js, and TypeScript based on Figma designs.
- Developed reusable UI components for contributor analytics, project tracking, and onboarding workflows.
- Worked with Supabase-backed application data to integrate dynamic content into dashboard interfaces.
- Collaborated with the development team using Git, GitHub, pull requests, and code reviews.

Projects

Finance Dashboard System Mar 2026 – Apr 2026

- Developed a full-stack financial management platform using Node.js, Express.js, PostgreSQL, and JavaScript with role-based access for different user types.
- Built REST APIs for financial record CRUD operations, search/filtering, and dashboard analytics.
- Implemented JWT-based authentication and role-based authorization using Express middleware, with Swagger for API documentation and testing.

Smart Air Monitor Mar 2026

- Built an IoT air-quality monitoring system using ESP32, DHT22, and MQ135 sensors, sending environmental readings to Supabase via HTTP.
- Developed a React dashboard to visualize temperature, humidity, gas levels, and near-real-time air-quality readings.
- Integrated a FastAPI prediction service using a pre-trained scikit-learn model to provide gas-level predictions and air-quality insights.

Dark Sky Finder Dec 2025 – Jan 2026

- Developed a React and Leaflet-based stargazing application integrating AQI, sky-viewability, and light-pollution data for location-based analysis.
- Implemented a combined scoring system to evaluate stargazing suitability based on environmental and atmospheric conditions.
- Integrated Gemini 2.0 Flash through an Express backend for astronomy-related conversational assistance and location-based queries.

Technical Skills

- Programming:** Python, C, Java
- Web:** HTML, CSS, JavaScript, React.js
- Backend:** Node.js, Express.js, FastAPI, REST APIs
- Databases:** SQL, PostgreSQL, Supabase
- AI/ML:** Scikit-learn, LLM API Integration
- Tools:** Git, GitHub, Postman, Swagger

Leadership & Activities

President — GITAM Aero Astro Club Present

- Leading a 20+ member team in organizing technical workshops, hackathons, astronomy activities, and outreach programs.
- Coordinating club teams across event planning, technical activities, promotions, and member engagement.

SHORe Fest, GITAM

- Technical Member (2026):** Contributed to the planning and coordination of technical workshops, hackathons, and student events.
- Recreational Member (2025):** Supported recreational activities, event logistics, and on-ground coordination.

Additional

- Certifications:** Python Programming (Internshala), Introduction to Java (Coursera), Full-Stack Development (Udemy).
- Hackathons:** Secured a Top 5 position at InnovAithon 2026 (IIT Hyderabad) with **AdaFit**, an AI-assisted fitness application; showcased **Dark Sky Finder** at AP SpaceTech Summit 2026 (Vignan University, Guntur).
